UNION SCHOOL DISTRICT

Parker and Union Elementary Schools in the Union School District will open September 13 with an anticipated enrollment of 1125 students which is an increase of 100 over that of the previous year.

In keeping with the need to house and educate more students each year Berkeley Mathews, vice-principal at Union School, said that the district is contemplating the purchase of two new school sites this fall as a result of the funds made available with the passage of a bond issue in early summer.

Administrators of the school are Kenneth McDonnell, district superintendent; Mrs. Ruth P. Stone, supervising principal at Union and Parker Schools and Berkeley Mathews, vice-principal at Union.

Campbell Committee Studies Civic Future

Department heads were called in for conference Thursday night with the special committee from the city council and planning commission to ascertain needs for the next six years.

The four man committee, headed by Chairman Guy Farley, will consider future needs of a growing community and setup a priority list so that the development will not all come at one time.

City Clerk Dorothy Trevethan, Police Chief Robert Locke, Fire Chief Jack Scott and Public Works Director LeRoy Black told of anticipated needs.

The civic future may call for a new city hall, fire station and police station, a corporation yard, a park and street improvements. A capital budget would be set up that may not be realized for six years as the development picture assumes definite proportions.

The committee, named by Mayor Richard Morton includes besides Chairman Farley, Councilman Gordon Daum, Councilman John Chargin and Planning Commission Secretary Homer Hyde.

Campbell Schools Retain Physician

Dr. Lydia Verbarg has been retained as school physician for the coming school year by the Campbell Union Elementary School District.

She will spend three days a week in the district making her headquarters at the administration building.

Dr. Verbarg will replace the Santa Clara County Health Department program formerly used by the district and contracted for each year.

The new doctor will serve in the capacity of consultant in health education and in the prevention of illness. Cases coming to her office and needing treatment will be referred to the child's family physician.

Her background is indicative of her ability in the field of health education starting with her education in medicine. She received her Bachelor of Arts degree at the University of California, her degree in medicine at New York Medical College after which she interned one year at San Francisco County Hospital and studied in pediatrics for one year at Childrens Hospital in San Francisco.

For five years she was a school physician in San Jose, spent two and a half years with the State Department of Health and for the past two years has been with the Santa Clara County Health Department in Palo Alto as a medical officer.

During recent years Dr. Verbarg has conducted many child health clinics in various parts of Santa Clara County.

This new addition gives the department 3,700 feet of the larger hose and 950 feet of the smaller type.

With the new fire truck recently purchased and two others the department has a 1,700 gallon pumping capacity per minute.

The department employs three regular firemen and has 28 volunteers including Fire Chief Jack B. Scott.

7000 STUDENTS ARE EXPECTED TO ENROLL ON OPENING DAYS HERE

More than 6000 students are expected to enroll in the Campbell elementary and high schools on opening days, September 13 and 20, according to school officials. Last year 5685 enrolled on opening days, 3988 in the elementary schools and 1687 in the Campbell High School.

Campbell High School and Cambrian Grammar School are opening September 20 while Campbell, Cherry Lane, Cypress, Dover, Hamilton, Moorpark, Quito, Rosemary, San Tomas, Union and Moreland Elementary schools are opening the 13th of September.

Total county enrollment, including public and parochial schools, is estimated at 96,338. Public schools are expected to have 91,838 if the 12 per cent increase over the previous year, which has been the case in the last few years, holds true. There were 81,999 children attending county schools last Fall.

Parochial elementary schools will open Tuesday, Sept. 7, following the Labor Day holiday.

Bellarmine College Preparatory will hold its first school day on Wednesday, Sept. 8

Notre Dame High School will open Sept. 7 for freshmen and sophomores to make out their programs and buy their books. Juniors and seniors will report to school the following day, Sept. 8, for the same purpose.

Harvesting of the prune crop has delayed a decision on opening date in some of the county's public school districts where youngsters work "in the fruit". While most schools have reported a date to the County School Department, there is always liklihood of a last-minute change.

FOUNDATION MAY PROVIDE POLIO POOL

Dolores Gomes, Campbell Union High School student who fourteen months ago became a polio victim and who has since been hospitalized, was removed Monday evening by train to the Rancho de Los Amigos rehabilitation center in Los Angeles where she is to receive special treatments under observation of some of the nation's outstanding physicians. She is to receive occupational therapy and will have access to a therapeutical pool designed especially for cases like hers.

With one other patient who was a polio victim three years ago and since been hospitalized, Miss Gomes was accompanied to Los Angeles by a doctor and two nurses. The trip and the stay at the rehabilitation center is made possible by the National Foundation which organization will take specific interest in reaction to muscular and therapeutic treatments.

The successful outcome of this test, it is understood may lead to the establishment of a therapeutic pool for polio victims in Santa Clara County, set up by the county and by the National foundation.

Polio attacks last but a few days leaving the victim with muscular deficiences. The attack may come to anyone regardless of age and health.

The late Franklin D. Roosevelt, President of the United States, was relieved by therapeutic treaments at Warm Springs, and it will be similar treatments which, it is understood, will be made available to Miss Gomes.

BACK TO THE CLASSROOMS

With schools opening in the Campbell area within the next three weeks, the big problem is how best to take care of the big increases in enrollment. Schools have been enlarged and new ones built, but the enrollment increase is at a faster pace than the building pace. Vacation time ends soon; so it will be back to school, back to the classrooms, back to learning—for those who are to be tomorrow's community leaders.

The schools of Campbell constitute the strongest governmental bodies, handling thousands of dollars and engaging personnel numbering in the hundreds.

FRANK L. STEINDORF

Campbell has lost one of its most valuable citizens in the unexpected death last Saturday of Frank Steindorf, an orchardist whose name was known throughout California. A man of tremendous energy and perseverance, he accomplished much in the interest of his fellow workers.

He was one of the organizers of the California Prune and Apricot Growers Association and served as one of its directors for thirteen years and as a member of the executive board for seven years. He served also on both the state and federal Prune Advisory Committees. He was first vice-president of the Pacific Coast Cherry Growers and Industry Foundation of which he was a charter member. He was first vice-president of the Pacific Coast Cherry Growers and Industry Foundation of which he was a charter member and he represented the foundation in Washington ten times in an effort to keep import prices on cherries in fair competition with domestic prices. He was active in Farm Bureau work, having held all the offices in the Southwest Center here, as first vice-president of the Santa Clara County Farm Bureau, and director of Region Four in the State Farm Bureau and was active on many committees on a state level.

With all these activities, Frank Steindorf still found the time to serve as clerk of the Cambrian Grammar School board and to do an exceptionally good job of it. He was enthusiastic over every task that he undertook and was an inspiration to all with whom he was associated.

The Campbell area, indeed the state of California will miss his capable leadership, for he had a broad and constructive outlook on the farm picture in California and in the nation.

SCHOOL TAKES UP AGAIN

At an appropriate time—schools being about to open—a child guidance expert by name of Dr. Rudolf Dreikurs last week in Chicago gave a convention of teachers some pointers on how to do their jobs.

"We must recognize now," said the expert, "that children function as equals to parents and teachers, in the school and in the home . . . Punishment can no longer produce submission and provoke cooperation."

Dr. Dreikurs is a psychiatrist, and as such he is hardly to be challenged by an ordinary mortal mind. Yet a question suggests itself: How in heck did the Republic survive during those long generations before psychiatry evolved—when kids were supposed to obey their parents and teachers, with a woodshed session as the "equalizer" in settling revolts against authority? Somehow the Nation did get through that benighted era, and produced a lot of superior men and women, from George Washington on.

Dr. Dreikurs also said: "The teacher should encourage a child because there are no bad ones — only discouraged ones."

No bad ones at all, doctor? Some of those teachers probably had mental reservations on that doctrine—thinking back on experiences with some little dears who didn't need encouragement nearly so much as some form of discouragement from outbursts of acute deviltry. Encouragement, of course, is a wonderful ingredient in classroom life—for oftweary and harassed teachers, the good doctor might have added, as well as for the kids.

Putting those thoughts aside, it is pleasant to reflect that here in California we do have an excellent school system, a Stateful of pretty good youngsters, taking one with another, and a fine corps of teachers. Happy schooldays to all.

WE'D LIKE TO ATTEND THIS ONE

An article on another page of this newspaper brings back poignant memories to us. The article is about the resumption of football rivalry between San Jose State College and University of Hawaii.

The last football game scheduled between these schools was never played, even though the visiting San Jose State team was present in Honolulu. The University of Hawaii played Willamette University on December 6, 1941. I witnessed that game, and during the evening attended a dance at the U. of H. given in honor of the Oregon and San Jose State teams. A part-time student at the University at that time, and a member of the U. S. Navy, I returned to Pearl Harbor Naval base the following morning just in time to witness the fiery explosion that touched off the Pacific War.

The San Jose State game, scheduled for the following Saturday, was never played. Instead, the players of both teams joined the Honolulu auxiliary police and did yeoman duty during the extreme emergency period. Some of these men did not return to the mainland for several years—one I know of stayed for four years. One Willamette player never returned alive, being claimed by illness during his stay in the Islands.

Sure wish I could attend this coming game!

SCHOOL BUSES Will soon be rolling as some 7000 or more students of the various schools in Campbell districts return to their classrooms . . . the Campbell High School district was formed back in 1900 and in looking back over the files of the Campbell Press, then known as the Weekly Visitor, there was not much ado made over school opening except that when harvesting was all done and the prune and other crops were all safely taken care of, then would be back-to-school time . . . on October 12, 1906 the paper reported that the Fruit Growers' Union is shipping out a large quantity of dried fruit which has been sold at a good figure, and reports from the season's work promises a more prosperous year for patrons than has been enjoyed for some time. The pool formed by some of the growers seems to be a success as it is reported that advantageous sales have already been made . . . same issue reports that a laboratory room has been fitted up in the basement of the High School building, a room in the primary building having been used for this purpose in the past . . . the Senior and junior classes had a "feed" in the new room. . . the Grammar School trustees elected J. N. Mercer as teacher for the fifth and sixth grades . . . John F. Duncan was cashier of the Bank of Campbell with Samuel P. Cooper as president and Benjamin Campbell as vice president, with the directorate including J. C. Ainsley, R. K. Thomas, E. I. Pierce, P. G. Keith, S. G. Rodek, J. Brynteson, S. R. Wade and Dr. C. N. Cooper . . . J. F. Neff advertised with a shop opposite the M. E. Church, advertised that he was a practical horseshoer giving special attention to lame, interfering, forging and stumbling horses and to corns in the feet . . . Al. Howe had a barber shop on south Central avenue rear of Mrs. Sutter's Restaurant advertising artistic hair cuts, easy shaves with clean towels and no apprentice . . . a torchlight parade was being planned for October 12, for the Republican County candidates with Sheriff Ross in the midst of a crucial race, A. M. Free a candidate for district attorney . . . few issues back, on April 27, a double column headline that Campbell Escaped Any Serious Damage, No Lives Lost in Earthquake, the line of damage being from San Francisco, Palo Alto, San Jose, Hollister and Salinas . . . massive stone buildings at Stanford, costing millions of dollars to build were completely ruined, while flimsey houses and barns were not damaged . . . in Campbell two wooden tanks of the water company which held 60,000 gallons of water, were a mass of kindling on the ground, the county water tank at the school was down, windows in the front of the IOOF building occupied by the Campbell Drug Store and the Press were knocked out, the Farmers Union lost one window and the front of A. E. Howes barbershop was destroyed and that is the extent of the damage except some broken plaster and fallen chimneys, C. B. Archibald's home on Cypress avenue lost most of its plaster and Henry Campbell's large chimney went through to the basement tearing things up pretty badly . . . Mr. Ainsley's tank remained up and he was able to connect up with town pipes and maintain the water supply.

Saratoga's New Shopping Center To Open Sept. 20

If all goes well, Saratoga's new $2560,000 village shopping center on Big Basin Way will open September 20, according to A. A. Dempsey, the developer.

A cleaning shop and a jewelry shop have already opened. The remainder of the center will probably be occupied by a food market, shoe, dress, yardage, pet, gift, candy and liquor stores.

IN CAMPBELL'S KITCHENS

This week we have two unusual recipes from the kitchen files of Mrs. C. C. Gilliam of 151 West Rincon Ave.

STUFFED FRANKS

Cut six frankfurters almost through lengthwise. Lay open in a shallow baking pan. Mix 1 egg, 1½ tablespoons of chopped onions, ½ teaspoon of celery salt, ¼ teaspoon garlic salt and add to 1½ cups cold mashed potatoes. Fill the franks with the potato mixture. Wrap each one with a strip of partially fried bacon and fasten with a toothpick. Bake 10-15 minutes at 425 degrees.

The second recipe is an excellent one for these late summer days and is a low calorie sherbet for those who are on strict diets.

BUTTERMILK SHERBET

2 cups buttermilk
1 teaspoon vanilla
dash salt
2/3 cup sugar
1 cup crushed fruit
1 egg white

Mix buttermilk with ½ of the sugar, salt, vanilla and fruit and freeze to a mush. (about 45 minutes) Whip egg white until it is very stiff, add rest of the sugar, and fold into the well-beaten fruit mixture. Return to freezer and freeze without further stirring. We prefer pineapple or strawberry sherbet.

COMMUNITY SERVICE FUND HEADS NAMED

Mrs. George Machado has been named campaign committee treasurer for the Campbell area Community Service Fund. Mrs. Fred Smith is area coordinator for the San Tomas business district and Mrs. E. S. Keesling is the coordinator for the Moorpark area.

Campbell Girl Has Leading Role In Los Gatos Play

Directed by Dr. James H. Clancy of San Jose State College drama department, Actors Repertory Co.'s production of "The Country Wife," William Wycherley's famous Restoration comedy, opens tomorrow night in Los Gatos at 8:30 p. m.

Show will play every Friday, Saturday and Sunday evening through September, with an additional performance on Labor Day (Sept. 6), at Hotel Lyndon's Summer Circle theatre.

Campbell resident Sylvia Cirone, 18-year old daughter of Mr. and Mrs. Joseph B. Cirone of Dry Creek Rd., has the leading role, that of Margery Pinchwife, in the play. A sophomore and drama major at San Jose State College, Sylvia has been in shows with San Jose Jnior Theatre, Junior Studio Players, and the Village Players.

Final offering in the current summer season of Actors Repertory Co., "The Country Wife" will be staged in an unusual style combining Elizabethean and circle-theatre ideas, Dr. Clancy annonces.

Donna Hepburn Wed In San Jose

Donna Joy Hepburn became the bride of Charles L. Ford in a double ring ceremony at the First Christian Church in San Jose on August 22 at 3:00 p. m.

The bride was given in marriage by her father, Clayton Hepburn.

For the wedding Donna wore a gown of white lace and tulle over satin designed for her by Mrs. Ira Saunders with long sleeves of the lace. The fitted bodice of the bouffant dress was accented by a scoop neckline. The train of the gown was Cathedral length and her veil was of French inported illusion caught in her hair by a halo giving a bow effect. She carried a white orchid bouquet with bouvardia and white satin streamers.

Her bridesmaids were all dressed in gowns identically styled with that of the bride and carried French bouquets of pastel flowers. Each girl wore a coronet of the same pastel flowers in her hair.

The maid of honor, Virginia Rhodes, was gowned in coral and the bridesmaids wore pastel shades. Mrs. Doris Richardson, the bride's sister, was in ice blue, Barbara Webster was dressed in maize and Mrs. Florence Fry in chartreuse.

Kathy Hale, the little niece of the bride, served as the flower girl dressed in a white dress fashioned identically to that worn by the bride. She carried a basket of rose petals.

Danny Hale, nephew of the bride, was the ring-bearer.

Ronald Langley performed the duties of best man and the ushers were Bryon Robick, Roscoe Macon and Jim Meekes.

Harold Rae, a friend of the family and the bride's music teacher, accompanied Mrs. Ruth Steward, the bride's cousin, who was the vocalist.

The church was decorated with white chrysanthemums and gladioli and white candles.

The bride's mother selected a blue lace dress for her daughter's wedding which she wore with dusty rose accessories and pink carnations at the shoulder.

The groom's mother, Mrs. Clifford Ford of San Jose, wore a dress of gray lace with accessories in the pink shades and a corsage of matching pink roses.

Following the ceremony a reception was held in the church social hall which was beautifully decorated with sprays of white gladiola. Focal point was the buffet table covered with an antique cloth of white and holding the lovely four-tiered wedding cake.

Pouring at the table were Mrs. Orville Webster of Los Gatos, the bride's aunt and Mrs. Ira Saunders of San Jose. Mrs. Florence Macon, the bride's sister-in-law, served the cake. Assisting with the serving were Pat Mohler and Dolores Dirksen.

Sheri Warren passed the bride's book.

When the young couple left for the honeymoon the bride was wearing a wool suit of light blue with navy blue accessories and had a white orchid pinned at the shoulder.

The newlyweds will make their home in Los Gatos.

Donna attended Campbell Schools and is a member of the Theta Rho girls in San Jose. Her parents make their home at 951 Munro Ave., Campbell.

The bridegroom is the son of Mr. and Mrs. Clifford Ford of San Jose and attended San Jose Junior College. He is employed by Stern and Price.

In the final game of the soft ball league here last Wednesday, the Italian-American team won the second half championship, qualifying to meet the champions of the first half schedule, the St. Johns in a two out of three game playoff. The IAC won 3-0 although out hit by Concrete Service. Dan Bergithold did a bang up job of clutch pitching allowing seven hits. IAC won seven and lost none in the second half series.

In the play-off game Monday it was a pitching duel between Mike Olavarri and Dan Bergithold the former yielding four blows and the latter three. Ed Escobar won the game for St. Johns by driving in Fred Costa who had walked and stole second. Box score:

Seven Hits – 15 Runs; Some Trick!

Jerry Hyde and Lois Miranda combined to collect all seven of the Yankee hits last Wednesday in their 15-6 triumph over the Kiwanis Realtors. Miranda got four of the hits while Hyde smashed out three. Virgil Conway issued only two hits to the Realtors. Shear and Conway were on the mound for the Yankees while Volzing did the hurling chores for the Kiwanis Realtors.

The Friday night Ltlle Farm League tussle between Jay's Sheet Metal and Kiwanis Realtors with a score 17 to 12 in favor of Jays, nevertheless the victory went to Kiwanis by forfeit 9-0 because Jay's used a little league player, Koster, in their lineup. The Kiwanis Realtors and Campbell Kiwanis ended the season in a tie for first place so the playoff was held last night.

On Monday Campbell Kiwanis gave the Yankees a sound lacing 4-0 as Jerry Hancock pitched and batted Kiwanis to the victory. He and Bill Rutter combined to pitch the first shut-out of the year in the Farm Little League. Jerry hit safely twice, driving in three of his team's four runs. Box score:

S F. STUDIES MONORAIL PLAN

San Francisco officials this week were studying an ambitionus monorail plan, submitted by the Monorail Engineering and Construction Corporation of North Hollywood.

Strictly a preliminary plan, the proposed system would be built around a main stem running out Market Street from Front Street through Twin Peaks Tunnel to a terminal near the county line. Three branch lines were proposed —a Geary-Richmond route, a Mission route and a Sunset route. An extension of the Market-Twin Peaks route would serve North Beach and the Marina.

Feeder bus lines were suggested for passengers not within easy walking distance of the proposed 47 small "on line" stations and three terminal-type stations, two of the latter being proposed for location at the Civic Center and the third tentatively recommended for a location west of Twin Peaks.

It was estimated the proposed 30.11 mile system would cost $96,000,000, compared to an estimated $140,000,000 for a 20-mile subway. Both figures include rolling stock. The report noted the monorail estimate is based on 1954 costs while the subway was estimated on 1950 costs.

The lightweight, air conditioned monorail cars would operate on pneumatic rubber tired wheels locked within the split overhead rail and guided by horizontal wheels positioned in the foot-wide slit in the rail. Supporting steel or pre-stressed concrete towers a minimum of 28 feet in height and forming a V, when viewed from the side, would be spaced about 75 feet apart. Each tower foundation would require on area only five feet by two feet, eight inches. No towers would be required in the Twin Peaks or Sunset Tunnels, the slit rails merely being anchored against the tunnel ceilings.

Two rather unusual advantages were advanced for the monorail system: It would be of "considerable value" for evacuation purposes in the event of bomb attack, and monorail cars could hum normally out Market Street even during a parade.

Featured speaker of the evening was Mrs. Grace Freudenthal, district president.

PG&E Ups Gas Imports In Area

The capacity of Pacific Gas and Electric Company's "Super Inch" transmission main to bring in out-of-state natural gas was increased this week to 700 million cubic feet daily when, according to a Company announcement today, the last section of an expansion project was completed.

The new "Super Inch" addition was completed when a valve was opened near Gilroy which allowed gas to flow through a 27-mile section paralleling the main 34-inch line. The completion of this job climaxed the installation of a series of "loops", or paralleling sections, along 284 miles of the 502-mile route of the original "Super Inch".

When the line first began importing gas to Northern and Central California from fields in Texas and New Mexico late in 1950, it had a capacity of 250 million feet per day. Later, the installation of compressors "boosted" the daily capacity of the transmission line to 400 million cubic feet.

The installation of 84 miles of "loops" increased the transmission capacity to 550 million cubic feet daily in 1953, and the 200 miles added this year—near Gilroy, from Kettleman to Arvin, and on the Mojave Desert—now have swelled the capacity to 700 million cubic feet.

Today, two-thirds of the natural gas supplied PG&E customers comes from out-of-state through the "Super Inch" line. The project now represents an investment by PG&E of more than $98 million.

Millerton, now submerged behind Friant Dam, was the Fresno County seat form 1856 to 1874.

Lake Merritt, a mile-long salt water lake in the heart of Oakland, is a wild duck refuge.

Game Scheduled

Renewing a rivalry that started in 1936, S. G. (Tiny) Hartranft, Chairman of Physical Education at San Jose State, announced today that a post-season game with the University of Hawaii has been scheduled for December 3 in Honolulu. A return game will be played in San Jose, October 1, 1955.

This will be the tenth time the Spartans have met Hawaiian teams in the Islands and the fourth time they will be meeting the University of Hawaii. The Golden Raiders downed the Hawaiians, 13-8 the first year, edged them in 1937, 7-6, and lost to them 12-13 in 1938 for their only defeat on Hawaiian soil.

The game will have much significance to four members of the team as they will be returning home to play before an enthusiastic hometown crowd. Pat and Roy Hiram, halfbacks, are from Honolulu; Mervin Lopes, end, is from Nanakuli; and Melvin Soong, halfback, is from Kappa, Kauai. Uriel Teshima, student manager, is from Honolulu.

This will be the fifth trip for Coach Bob Branzan.

Henry Vasconcellos, University of Hawaii's Director of Athletics and head football coach, is a graduate of San Jose State.

After their loss in 1938 to the University of Hawaii, the Spartans didn't schedple a Hawaiian team until 1941 and that game was never played. The team was in Honolulu readying for the game when Pearl Harbor was bombed.

LAW IN ACTION

PROPERTY AND WIVES' RIGHTS

In California when a girl marries she becomes, at least in part, a business partner as well as a home maker, largely due to our community property law.

We Californians like to think of ourselves as among the foremost in respect for women's rights, particularly property rights.

Under the old English common law, the theory was that a man and wife were one. He owned and managed the property. She had only limited rights, even as to her own personal property.

But the community property law holds that a married woman is a separate person. Neither the husband nor wife has the upper hand as to ownership of community property, although the husband does have superior rights in controlling it. As a rule, community property is what a man and wife get after marriage as a result of their labor. So, neither one can give away such property without the other's consent.

Someone has to manage the property so, by law, the husband becomes the manager. But like a business manager, he manages, he does not fully own. A man cannot deed or mortgage the real property unless the wife joins. But he can sell their community personal property without her consent. The money he gets for it is itself community property, and his wife owns half of it.

Only eight states, all of them in the West or South, are community property states. The system first came from Germany, from where it spread to Spain and Mexico, and then to some of our southern and western states.

NOTE: The State Bar of California offers this column for your information so that you may know more about how to act under our laws.

More Veterans Buying Homes By State Plan

The number of California war veterans who are purchasing homes and farms with "Cal-Vet" state assistance has more than doubled in four years, according to figures released by the State Department of Veterans Affairs.

A total of 47,539 properties were under contract last June 30th a fiscal year summary shows, compared with 23,300 on the corresponding date in 1950.

During the last fiscal year alone, the number of Cal-Vet properties under contract jumped 17 percent —up from 40,657 in June of 1953.

An increase in outstanding Cal-Vet property accounts was noted in nearly all 56 of California's 58 counties where homes and farms were being financed under the low-interest state plan for veterans.

In Santa Clara county, 1684 veterans were purchasing homes and farms through the Department of Veterans Affairs as of last June 30th.

The annual count of veterans taking advantage of the 3 percent financing terms reveals a net increase of 6,881 active contracts over the previous year's total. During the year, many additional veterans completed payment of their obligations to the State.

These figures represent only properties actually under contract at the end of the fiscal year, it was explained by J. Marvin Russell, acting Director of the Department. Altogether the Cal-Vet plan has aided 75,000 California exservicemen to finance their homes and farms, and of these about 27,000 have paid off their contracts in full.

The aqueduct which carries water from the High Sierra to San Francisco reservoirs is composed of mountain and foothill tunnels and pipe lines.

Brick Construction Is Rotary Topic

The "Hard Facts About Masonry" was the topic of R. W. Harrington's talk at the Monday meeting the of Campbell Rotary Club in I. O. O. F. Hall.

The speaker is manager of the Clay and Brick and Tile Association of Northern California.

His talk dealt primarily with masonry construction under earthquake conditions. He said that old buildings built collapsed during earthquakes because they were constructed of inferior brick and not reinforced.

The talk which dealt also with steel and reinforced construction was illustrated with slides.

Harry Redikef served as chairman of the day.

WHAT IT TAKES
to supply your home with WATER every day

By Charles B. Parbury
Vice President and General Manager

CHARLES B. PARBURY

Here in the area served by the San Jose Water Works we see scores of milk, laundry and other types of service vehicles each day busily making deliveries to thousands of homes. The convenience of home delivery is one of the great advantages of urban living.

But you probably never have realized that the San Jose Water Works is perhaps the largest "delivery" enterprise in this community. And we're mighty proud of that distinction.

Each time you drink a glass of water, remember that it is just one glass out of more than 552,000,000 glasses we deliver to our consumers here on an average day.

One of our statisticians came up with the startling thought the other day. He figured that if we had to deliver this water in quart bottles to the average consumer's doorstep, we would be delivering over 1600 bottles every morning to satisfy each homeowner's daily requirements! We're glad that we don't have to do it the hard way, and I'm sure you folks are happy you can get all you need of this prime necessity of life, 365 days out of the year, just by turning the faucet.

Visual Training Helps Eye-Strain

Dr. Robert R. Jasmine, local optometrist, joined with more than two hundred members of the California Optometric Association in attending the annual Visual Training Workshop in San Jose on August 21 and 22. The workshop specialized in practical training for the improvement of vision, particularly that of school children.

Speakers at the conference were Dr. Fred W. Sutter of Philadelphia, Pa.; Dr. George Crow of Los Angeles; Dr. Merton C. Flom, U. C. School of Optometry, Berkeley; Dr. Leonard C. Emery of Pasadena; and Dr. A. M. Skeffington of St. Louis, Mr., director of the Graduate Clinic Foundation.

Optometrists point out that visual training improves the coordination of the eyes and the brain, which are combined in visual functions as a basic skill. Improvement in reading speed is one result of visual training.

KIWANIANS HEAR OF COUNTY FAIR

Mrs. Ben Campbell, vice-chairman of the Board of Directors and one of the organizers back in 1939 of the Santa Clara County Fair, told members of the Campbell Kiwanis Club on Tuesday, that an approach was made five years ago to have the California State Fair moved to the 125 acre site of the local fair. The state fair covers all its acreage and has no further means for expansion it was brought out.

Mrs. Campbell told of interest manifest in home economics and in the junior exhibits, and said that in a poll conducted last September patrons indicated a roof over the grandstand was what they wanted most, so it is likely that this will be the next project. Pragram chairman was Steve Goodman.

Ten year service pin was given Fred Jones and an 11-year pin to Ethan Lanphear.

William Henley, Fred Jones and Joseph Gomes were named on a nominating committee for officers to serve the new term with the election in October.

Visitors from San Jose included Al Colombo, Cliff Swanson and Andy Anderson.

SCIENCE CHRISTIAN

The ability, power, and sinless perfection which characterize man's real nature in God's likeness will be brought out at Christian Science services Sunday.

The Lesson-Sermon entitled "Man" includes the following passages from the Kig James Version of the Bible (Ephesians 4:7, 13):

"But unto every one of us is given grace according to the measure of the gift of Christ . . . . Till we all come in the unity of the faith, and of the knowledge of the Son of God, unto a perfect man, unto the measure of the stature of the fulness of Christ."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following passage will be among those read (258:21): "The human capacities are enlarged and prefected in proportion as humanity gains the true conception of man and God."

The Golden Text is from Genesis (1:27): "God created man in his own image, in the image of God created he him."

Yesterday a series of grade level meetings began and will continue to Sept. 8 when there will be a general district meeting for all certified personnel and on Sept. 10 meetings in the various schools will be held under the direction of the individual school principals.

In conjunction with the actual teaching instructions, plans are also being made for bus routes which will be approximately the same as those last year.

New students to the district and those entering kindergarten may register now at the schools which are closest to their homes.

Plans are also complete to serve a hot lunch on the first day of school.

Grange Planning Tour Of Europe

Farm folks who plan to go on the National Grange European Tour in October, may visit farms and agricultural schools within 20 to 30 miles of Lucerne, Switzerland, if they desire. A dairy school is located at Sursursee and an agricultural school at Willifau.

In the Netherlands will be found an animal husbandry experimental farm and an agricultural university at Wageningen, within an hour of Amsterdam. Germany has an experimental farm near Heidelberg, which is operated by a chemical company. Teaching here is along chemical, antibiotics, and similar lines.

France boasts three schools near Paris, one at Versailles; another, the Grignon Agricultural School, is housed in a castle built during the reign of Louis XIII. A third, Belgerie Nationale Arnbouillet, specializes in sheep breeding.

Famous Kew Gardens in England are internationally known. They are not only surpassingly beautiful but an experimental station, also world famous, is connected with the Gardens which are located in Outer London, easily accessible.

Side trips to these places of agricultural interest are optional and may be arranged if a sufficient number of tour members wish to take them.
